

JQuery Smorgasbord Developer Journal

Zhihao Cao

Jun. 12 2012

This is the most crazy assignment in this semester. I spent more than ten hours to figure out how jQuery works. The problems I have encountered in this assignment are too much.

Challenge:

- The template downloaded from jQuery official website didn't not work. All examples are invisible.
- It is too hard to change the color of accordion pleat.
- The movement didn't work. My code is correct. I have no idea what is going on there.
- Adding the navigational bar make me crazy. It takes me about 5 hours to change the parameter over a navigational bar but it freak out. Finally I only can be back to use my older version.
